

## 兔抗 TMOD3 多克隆抗体

中文名称：兔抗 TMOD3 多克隆抗体

英文名称：Anti-TMOD3 rabbit polyclonal antibody

别 名：tropomodulin 3; UTMOD

相关类别：一抗

储 存：冷冻（-20℃）

宿 主：Rabbit

抗 原：TMOD3

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

|                                    |                                                                                                                                                                                                                                                       |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>                 | Blocks the elongation and depolymerization of the actin filaments at the pointed end. The Tmod/TM complex contributes to the formation of the short actin protofilament, which in turn defines the geometry of the membrane skeleton (By similarity). |
| <b>Applications:</b>               | ELISA, WB, IHC                                                                                                                                                                                                                                        |
| <b>Name of antibody:</b>           | TMOD3                                                                                                                                                                                                                                                 |
| <b>Immunogen:</b>                  | Fusion protein of human TMOD3                                                                                                                                                                                                                         |
| <b>Full name:</b>                  | tropomodulin 3                                                                                                                                                                                                                                        |
| <b>Synonyms:</b>                   | UTMOD                                                                                                                                                                                                                                                 |
| <b>SwissProt:</b>                  | Q9NYL9                                                                                                                                                                                                                                                |
| <b>ELISA Recommended dilution:</b> | 5000-10000                                                                                                                                                                                                                                            |
| <b>IHC positive control:</b>       | Human gastric cancer                                                                                                                                                                                                                                  |
| <b>IHC Recommend dilution:</b>     | 50-200                                                                                                                                                                                                                                                |

|                          |                  |
|--------------------------|------------------|
| WB Predicted band size:  | 40 kDa           |
| WB Positive control:     | 293T cell lysate |
| WB Recommended dilution: | 1000-5000        |
