

兔抗 TCAP 多克隆抗体

中文名称：兔抗 TCAP 多克隆抗体

英文名称：Anti-TCAP rabbit polyclonal antibody

别名：titin-cap; TELE; CMD1N; CMH25; T-cap; LGMD2G; LGMDR7; telethonin

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：TCAP

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Sarcomere assembly is regulated by the muscle protein titin. Titin is a giant elastic protein with kinase activity that extends half the length of a sarcomere. It serves as a scaffold to which myofibrils and other muscle related proteins are attached. This gene encodes a protein found in striated and cardiac muscle that binds to the titin Z1-Z2 domains and is a substrate of titin kinase, interactions thought to be critical to sarcomere assembly. Mutations in this gene are associated with limb-girdle muscular dystrophy type 2G.
Applications:	ELISA, IHC
Name of antibody:	TCAP
Immunogen:	Fusion protein of human TCAP
Full name:	titin-cap
Synonyms:	TELE; CMD1N; CMH25; T-cap; LGMD2G; LGMDR7; telet

	honin
SwissProt:	O15273
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human tonsil and Human thyroid cancer
IHC Recommend dilution:	50-200
