

兔抗 PATJ 多克隆抗体

中文名称：兔抗 PATJ 多克隆抗体

英文名称：Anti-PATJ rabbit polyclonal antibody

别名：PATJ, crumbs cell polarity complex component; Cipp; INADL; hINADL; InaD-like

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：PATJ

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a protein with multiple PDZ domains. PDZ domains mediate protein-protein interactions, and proteins with multiple PDZ domains often organize multi-meric complexes at the plasma membrane. This protein localizes to tight junctions and to the apical membrane of epithelial cells. A similar protein in Drosophila is a scaffolding protein which tethers several members of a multi-meric signaling complex in photoreceptors.
Applications:	ELISA, IHC
Name of antibody:	PATJ
Immunogen:	Synthetic peptide of human PATJ
Full name:	PATJ, crumbs cell polarity complex component
Synonyms:	Cipp; INADL; hINADL; InaD-like

SwissProt:	Q8NI35
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human cervical cancer
IHC Recommend dilution:	40-200
