

兔抗 NFYA 多克隆抗体

- 中文名称: 兔抗 NFYA 多克隆抗体
- 英文名称: Anti-NFYA rabbit polyclonal antibody
- 别名: HAP2; CBF-A; CBF-B; NF-YA
- 相关类别: 一抗
- 储存: 冷冻(-20℃) 避光
- 抗 原: NFYA
- 宿 主: Rabbit
- 反应种属: Human Mouse Rat
- 标记物: Unconjugate
- 克隆类型: Unconjugate

技术规格

Background:	The protein encoded by this gene is one subunit of a trime ric complex, forming a highly conserved transcription factor that binds to CCAAT motifs in the promoter regions in a va riety of genes. Subunit A associates with a tight dimer com posed of the B and C subunits, resulting in a trimer that bi nds to DNA with high specificity and affinity. The sequence specific interactions of the complex are made by the A sub unit, suggesting a role as the regulatory subunit.
Applications:	WB
Name of antibody:	NFYA
Immunogen:	Synthesized peptide derived from internal of human NFYA.
Full name:	nuclear transcription factor Y, alpha
Synonyms :	HAP2; CBF-A; CBF-B; NF-YA

www.shjning.com

SwissProt:	P23511
WB Predicted band size:	37 kDa
WB Positive control:	293 cells, HepG2 cells and COLO205 cells lysates
WB Recommended dilution:	500-3000
