

兔抗 NABP1 多克隆抗体

中文名称：兔抗 NABP1 多克隆抗体

英文名称：Anti-NABP1 rabbit polyclonal antibody

别名：nucleic acid binding protein 1; SSB2; OBFC2A; SOSS-B2

相关类别：一抗

储存：冷冻（-20℃）

抗原：NABP1

宿主：Rabbit

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Single-stranded DNA (ssDNA)-binding proteins, such as OBF C2A, are ubiquitous and essential for a variety of DNA metabolic processes, including replication, recombination, and detection and repair of damage (Richard et al., 2008 [PubMed 18449195]).
Applications:	ELISA, WB, IHC
Name of antibody:	NABP1
Immunogen:	Fusion protein of human NABP1
Full name:	nucleic acid binding protein 1
Synonyms:	SSB2; OBFC2A; SOSS-B2
SwissProt:	Q96AH0
ELISA Recommended dilution:	5000-10000

IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	50-200
WB Predicted band size:	22 kDa
WB Positive control:	Jurkat cell, Mouse liver tissue lysates
WB Recommended dilution:	500-2000
