

兔抗 SCT 多克隆抗体

中文名称：兔抗 SCT 多克隆抗体

英文名称：Anti-SCT rabbit polyclonal antibody

相关类别：一抗

储 存：冷冻（-20℃）

宿 主：Rabbit

抗 原：SCT

反应种属：Human, Mouse, Rat

标 记 物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Secretin belongs to the glucagon family. This protein is an endocrine hormone and its major site of production is the endocrine S cells located in the proximal small intestinal mucosa. The release of active secretin is stimulated by either fatty acids or an acidic pH in the duodenum. This hormone stimulates the secretion of bicarbonate-rich pancreatic fluids and has also been shown to regulate the growth and development of the stomach, small intestine, and pancreas. Secretin deficiency has been implicated in autistic syndrome, suggesting that the hormone could have a neuroendocrine function in addition to its role in digestion.
Applications:	ELISA, IHC
Name of antibody:	SCT
Immunogen:	Synthetic peptide of human SCT

Full name:	secretin
SwissProt:	P09683
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human thyroid cancer and Human ovarian cancer
IHC Recommend dilution:	50-200
