

## 兔抗 STK39(Ab-311) 多克隆抗体

中文名称：兔抗 STK39(Ab-311) 多克隆抗体

英文名称：Anti-STK39(Ab-311) rabbit polyclonal antibody

别名：DCHT; PASK; SPAK

抗原：STK39(Ab-311)

储存：冷冻（-20℃）避光

宿主：Rabbit

反应种属：Human

相关类别：一抗

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

|                                 |                                                                                                                       |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>              | May act as a mediator of stress-activated signals.                                                                    |
| <b>Applications:</b>            | WB                                                                                                                    |
| <b>Name of antibody:</b>        | STK39(Ab-311)                                                                                                         |
| <b>Immunogen:</b>               | Synthesized non-phosphopeptide derived from human STK39 around the phosphorylation site of serine 311 (G-K-S(p)-F-R). |
| <b>Full name:</b>               | serine threonine kinase 39                                                                                            |
| <b>Synonyms :</b>               | DCHT; PASK; SPAK                                                                                                      |
| <b>SwissProt:</b>               | Q9UEW8                                                                                                                |
| <b>WB Predicted band size:</b>  | 59 kDa                                                                                                                |
| <b>WB Positive control:</b>     | COLO cells lysate                                                                                                     |
| <b>WB Recommended dilution:</b> | 500-3000                                                                                                              |
