

## 兔抗 PROK1 多克隆抗体

中文名称：兔抗 PROK1 多克隆抗体

英文名称：Anti-PROK1 rabbit polyclonal antibody

别名：PK1; PRK1; EGVEGF

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：PROK1

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

<b>Background:</b>	The protein encoded by this gene induces proliferation, migration, and fenestration (the formation of membrane discontinuities) in capillary endothelial cells derived from endocrine glands. It has little or no effect on a variety of other endothelial and non-endothelial cell types. Its expression is restricted to the steroidogenic glands (ovary, testis, adrenal, and placenta), is induced by hypoxia, and often complementary to the expression of vascular endothelial growth factor (VEGF), suggesting that these molecules function in a coordinated manner.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	PROK1

<b>Immunogen:</b>	Synthetic peptide of human PROK1
<b>Full name:</b>	prokineticin 1
<b>Synonyms:</b>	PK1; PRK1; EGVEGF
<b>SwissProt:</b>	P58294
<b>ELISA Recommended dilution:</b>	5000-10000
<b>IHC positive control:</b>	Human tonsil
<b>IHC Recommend dilution:</b>	25-100
