

兔抗 PAFAH1B1 多克隆抗体

- 中文名称：兔抗 PAFAH1B1 多克隆抗体
- 英文名称：Anti-PAFAH1B1 rabbit polyclonal antibody
- 别名：MDS, LIS1, LIS2, MDCR, PAFAH
- 相关类别：一抗
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 抗原：PAFAH1B1
- 反应种属：Human, Mouse, Rat
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

This locus was identified as encoding a gene that when mutated or lost caused the lissencephaly associated with Miller-Dieker lissencephaly syndrome. This gene encodes the non-catalytic alpha subunit of the intracellular Ib isoform of platelet-activating factor acetylhydrolase, a heterotrimeric enzyme that specifically catalyzes the removal of the acetyl group at the SN-2 position of platelet-activating factor (identified as 1-O-alkyl-2-acetyl-sn-glycerol-3-phosphorylcholine). Two other isoforms of intracellular platelet-activating factor acetylhydrolase exist: one composed of multiple subunits, the other, a single subunit. In addition, a single-subunit isoform of this enzyme is found in serum.

Applications:	ELISA, IHC
Name of antibody:	PAFAH1B1
Immunogen:	Synthetic peptide of human PAFAH1B1
Full name:	platelet-activating factor acetylhydrolase 1b, regulatory subunit 1 (45kDa)
Synonyms :	MDS, LIS1, LIS2, MDCR, PAFAH
SwissProt:	P43034
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human ovarian cancer and Human brain
IHC Recommend dilution:	25-100
