

兔抗 SAA1 多克隆抗体

- 中文名称：兔抗 SAA1 多克隆抗体
- 英文名称：Anti-SAA1 rabbit polyclonal antibody
- 别名：serum amyloid A1; SAA; PIG4; SAA2; TP5314
- 相关类别：一抗
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 抗原：SAA1
- 反应种属：Human
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the serum amyloid A family of apolipoproteins. The encoded preproprotein is proteolytically processed to generate the mature protein. This protein is a major acute phase protein that is highly expressed in response to inflammation and tissue injury. This protein also plays an important role in HDL metabolism and cholesterol homeostasis. High levels of this protein are associated with chronic inflammatory diseases including atherosclerosis, rheumatoid arthritis, Alzheimer's disease and Crohn's disease. This protein may also be a potential biomarker for certain tumors. Alternate splicing results in multiple transcript variants that encode the same protein. A ps

	eudogene of this gene is found on chromosome 11.
Applications:	ELISA, IHC
Name of antibody:	SAA1
Immunogen:	Fusion protein of human SAA1
Full name:	serum amyloid A1
Synonyms:	SAA; PIG4; SAA2; TP53I4
SwissProt:	PODJI8
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	100-300
