

兔抗 RAMP3 多克隆抗体

- 中文名称:兔抗 RAMP3 多克隆抗体
- 英文名称: Anti-RAMP3 rabbit polyclonal antibody
- 抗原: RAMP3
- 储存: 冷冻(-20℃)
- 宿 主: Rabbit
- 相关类别: 一抗
- 反应种属: Human, Mouse, Rat
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a member of the RAMP family of single-transmembrane-domain proteins , called receptor (calcitonin) activity modifying proteins (RAMPs). RAMPs are type I transmembrane proteins wi th an extracellular N terminus and a cytoplasmic C ter minus. RAMPs are required to transport calcitonin-rece ptor-like receptor (CRLR) to the plasma membrane. CR LR, a receptor with seven transmembrane domains, ca n function as either a calcitonin-gene-related peptide (CGRP) receptor or an adrenomedullin receptor, depen ding on which members of the RAMP family are expr essed. In the presence of this (RAMP3) protein, CRLR f unctions as an adrenomedullin receptor.
Applications:	ELISA, IHC
Name of antibody:	RAMP3

Immunogen:	Fusion protein of human RAMP3
Full name:	receptor (G protein-coupled) activity modifying protein 3
SwissProt:	O60896
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human ovarian cancer and Human thyroid cancer
IHC Recommend dilution:	50-200
