

兔抗 MEF2D 多克隆抗体

中文名称: 兔抗 MEF2D 多克隆抗体

英文名称: Anti-MEF2D rabbit polyclonal antibody

相关类别: 一抗

储 存: 冷冻(-20℃)

宿 主: Rabbit

抗 原: MEF2D

反应种属: Human, Mouse, Rat

标 记 物: Unconjugate

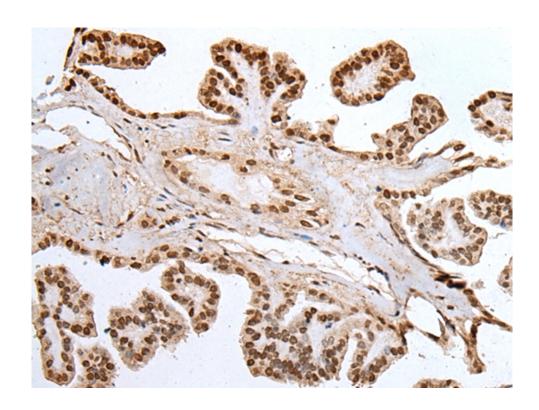

克隆类型: rabbit polyclonal

技术规格

| Background: | This gene is a member of the myocyte-specific enhancer factor 2 (MEF2) family of transcription factors. Members of this family are involved in control of muscle and neur onal cell differentiation and development, and are regula ted by class II histone deacetylases. Fusions of the enco ded protein with Deleted in Azoospermia-Associated Protein 1 (DAZAP1) due to a translocation have been found in an acute lymphoblastic leukemia cell line, suggesting a role in leukemogenesis. The encoded protein may also be involved in Parkinson disease and myotonic dystroph y. Alternative splicing results in multiple transcript variants. |
|-------------------|--|
| Applications: | ELISA, IHC |
| Name of antibody: | MEF2D |
| Immunogen: | Synthetic peptide of human MEF2D |

| Full name: | myocyte enhancer factor 2D |
|-----------------------------|---|
| SwissProt: | Q14814 |
| ELISA Recommended dilution: | 5000-10000 |
| IHC positive control: | Human esophagus cancer and human thyroid cancer |
| IHC Recommend dilution: | 25-100 |
