

兔抗 REG1A 多克隆抗体

中文名称：兔抗 REG1A 多克隆抗体

英文名称：Anti-REG1A rabbit polyclonal antibody

别名：P19; PSP; PTP; REG; ICRF; PSPS; PSPS1

储存：冷冻（-20℃）

抗原：REG1A

宿主：Rabbit

相关类别：一抗

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene is a type I subclass member of the Reg gene family. The Reg gene family is a multigene family grouped into four subclasses, types I, II, III and IV, based on the primary structures of the encoded proteins. This gene encodes a protein that is secreted by the exocrine pancreas. It is associated with islet cell regeneration and diabetogenesis and may be involved in pancreatic lithogenesis. Reg family members REG1B, REGL, PAP and this gene are tandemly clustered on chromosome 2p12 and may have arisen from the same ancestral gene by gene duplication.
Applications:	ELISA, WB
Name of antibody:	REG1A

Immunogen:	Fusion protein of human REG1A
Full name:	regenerating family member 1 alpha
Synonyms:	P19; PSP; PTP; REG; ICRF; PSPS; PSPS1
SwissProt:	P05451
ELISA Recommended dilution:	5000-10000
WB Predicted band size:	19 kDa
WB Positive control:	Human pancreas tissue lysate
WB Recommended dilution:	500-2000
