

兔抗 GUF1 多克隆抗体

中文名称: 兔抗 GUF1 多克隆抗体

英文名称: Anti-GUF1 rabbit polyclonal antibody

别 名: EF-4

抗原: GUF1

储 存: 冷冻(-20℃) 避光

宿 主: Rabbit

相关类别: 一抗

反应种属: Human Mouse

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a GTPase that triggers back-translocation of the elongating ribosome during mitochondrial protein synt hesis. The protein contains a highly conserved C-terminal do main not found in other GTPases that facilitates tRNA bindin g. The encoded protein is thought to prevent misincorporati on of amino acids in stressful, suboptimal conditions. An alle lic variant in this gene has been associated with early infantil e epileptic encephalopathy-40. Alternative splicing results in multiple transcript variants.
Applications:	IHC

Name of antibody:	GUF1
Immunogen:	Synthesized peptide derived from internal of human GUF1.
Full name:	GUF1 homolog, GTPase
Synonyms:	EF4; EF-4; EIEE40
SwissProt:	Q8N442
IHC positive control:	Human colon carcinoma tissue
IHC Recommend dilution:	50-100
