

## 兔抗 STK36 多克隆抗体

中文名称：兔抗 STK36 多克隆抗体

英文名称：Anti-STK36 rabbit polyclonal antibody

别名：FU

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：STK36

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

<b>Background:</b>	This gene encodes a member of the serine/threonine kinase family of enzymes. This family member is similar to a Drosophila protein that plays a key role in the Hedgehog signaling pathway. This human protein is a positive regulator of the GLI zinc-finger transcription factors. Knockout studies of the homologous mouse gene suggest that defects in this human gene may lead to congenital hydrocephalus, possibly due to a functional defect in motile cilia.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	STK36
<b>Immunogen:</b>	Synthetic peptide of human STK36
<b>Full name:</b>	serine/threonine kinase 36
<b>Synonyms :</b>	FU

SwissProt:	Q9NRP7
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human liver cancer and Human breast cancer
IHC Recommend dilution:	10-50
