

兔抗 GZMH 多克隆抗体

中文名称：兔抗 GZMH 多克隆抗体

英文名称：Anti-GZMH rabbit polyclonal antibody

别名：granzyme H; CCP-X; CGL-2; CSP-C; CTLA1; CTSL2

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：GZMH

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the peptidase S1 family of serine proteases. Alternative splicing results in multiple transcript variants, at least one of which encodes a preproprotein that is proteolytically processed to generate a chymotrypsin-like protease. This protein is reported to be constitutively expressed in the NK (natural killer) cells of the immune system and may play a role in the cytotoxic arm of the innate immune response by inducing target cell death and by directly cleaving

	substrates in pathogen-infected cells. This gene is present in a gene cluster with another member of the granzyme subfamily on chromosome 14. [provided by RefSeq, Nov 2015]
Applications:	ELISA, WB, IHC
Name of antibody:	GZMH
Immunogen:	Synthetic peptide of human GZMH
Full name:	granzyme H
Synonyms:	CCP-X; CGL-2; CSP-C; CTLA1; CTSG2
SwissProt:	P20718
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	50-200
WB Predicted band size:	27 kDa
WB Positive control:	Hela and 231 cell lysates
WB Recommended dilution:	1000-5000
