

## 兔抗 MAL 多克隆抗体

- 中文名称：兔抗 MAL 多克隆抗体
- 英文名称：Anti-MAL rabbit polyclonal antibody
- 相关类别：一抗
- 储 存：冷冻（-20℃）
- 宿 主：Rabbit
- 抗 原：MAL
- 反应种属：Human, Mouse, Rat
- 标 记 物：Unconjugate
- 克隆类型：rabbit polyclonal

### 技术规格

**Background:**

The protein encoded by this gene is a highly hydrophobic integral membrane protein belonging to the MAL family of proteolipids. The protein has been localized to the endoplasmic reticulum of T-cells and is a candidate linker protein in T-cell signal transduction. In addition, this proteolipid is localized in compact myelin of cells in the nervous system and has been implicated in myelin biogenesis and/or function. The protein plays a role in the formation, stabilization and maintenance of glycosphingolipid-enriched membrane microdomains. Down-regulation of this gene has been associated with a variety of human epithelial malignancies. Alternative splicing produces four transcript variants which vary from each other by the presence or absence of alternatively spliced exons 2 and 3.

<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	MAL
<b>Immunogen:</b>	Synthetic peptide of human MAL
<b>Full name:</b>	mal, T-cell differentiation protein
<b>SwissProt:</b>	P21145
<b>ELISA Recommended dilution:</b>	2000-5000
<b>IHC positive control:</b>	Human liver cancer and Human brain
<b>IHC Recommend dilution:</b>	50-200
