

兔抗 STXBP4 多克隆抗体

中文名称：兔抗 STXBP4 多克隆抗体

英文名称： Anti-STXBP4 rabbit ployclonal antibody

别名： Synip

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： STXBP4

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	Plays a role in the translocation of transport vesicles from the cytoplasm to the plasma membrane. Inhibits the translocation of SLC2A4 from intracellular vesicles to the plasma membrane by STX4A binding and preventing the interaction between STX4A and VAMP2. Stimulation with insulin disrupts the interaction with STX4A, leading to increased levels of SLC2A4 at the plasma membrane. May also play a role in the regulation of insulin release by pancreatic beta cells after stimulation by glucose.
Applications:	ELISA, IHC
Name of antibody:	STXBP4
Immunogen:	Fusion protein of human STXBP4
Full name:	syntaxin binding protein 4
Synonyms:	Synip

SwissProt:	Q6ZWJ1
IHC positive control:	Human breast cancer
IHC Recommend dilution:	25-100
