

## 兔抗 SYTL5 多克隆抗体

中文名称：兔抗 SYTL5 多克隆抗体

英文名称： Anti-SYTL5 rabbit polyclonal antibody

别名： slp5

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： SYTL5

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

### 技术规格

|                          |  |
|--------------------------|--|
| <b>Background:</b>       | The protein encoded by this gene belongs to the synaptotagmin-like (Slp) protein family, which contains a unique homology domain at the N-terminus, referred to as the Slp homology domain (SHD). The SHD functions as a binding site for Rab27A, which plays a role in protein transport. Expression of this gene is restricted to placenta and liver, suggesting that it might be involved in Rab27A-dependent membrane trafficking in specific tissues. |
| <b>Applications:</b>     | ELISA, IHC   |
| <b>Name of antibody:</b> | SYTL5  |
| <b>Immunogen:</b>        | Fusion protein of human SYTL5  |
| <b>Full name:</b>        | synaptotagmin-like 5   |
| <b>Synonyms :</b>        | slp5   |

|                             |  |
|-----------------------------|--|
| SwissProt:                  | Q8TDW5                                 |
| ELISA Recommended dilution: | 2000-5000                              |
| IHC positive control:       | Human brain and human esophagus cancer |
| IHC Recommend dilution:     | 25-100                                 |
