

兔抗 SSTR5 多克隆抗体

中文名称：兔抗 SSTR5 多克隆抗体

英文名称：Anti-SSTR5 rabbit polyclonal antibody

别名：SS-5-R

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：SSTR5

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Somatostatin and its related peptide cortistatin exert multiple biological actions on normal and tumoral tissue targets by interacting with somatostatin receptors (SSTRs). The protein encoded by this gene is one of the SSTRs, which is a multi-pass membrane protein and belongs to the G-protein coupled receptor 1 family. The activity of this receptor is mediated by G proteins which inhibit adenylyl cyclase, and different regions of this receptor molecule are required for the activation of different signaling pathways. A mutation in this gene results in somatostatin analog resistance. Alternatively spliced transcript variants have been identified in this gene.
Applications:	ELISA, WB
Name of antibody:	SSTR5
Immunogen:	Synthetic peptide of human SSTR5

Full name:	somatostatin receptor 5
Synonyms:	SS-5-R
SwissProt:	P35346
ELISA Recommended dilution:	5000-10000
WB Predicted band size:	39 kDa
WB Positive control:	Human heart tissue lysate
WB Recommended dilution:	500-2000
