

兔抗 SRY 多克隆抗体

中文名称：兔抗 SRY 多克隆抗体

英文名称： Anti-SRY rabbit polyclonal antibody

别名： TDF; TDY; SRXX1; SRXY1

相关类别： 一抗

储存： 冷冻（-20℃） 避光

抗原： SRY

宿主： Rabbit

反应种属： Human

标记物： Unconjugate

克隆类型： Unconjugate

技术规格

Background:	This intronless gene encodes a transcription factor that is a member of the high mobility group (HMG)-box family of DNA-binding proteins. This protein is the testis-determining factor (TDF), which initiates male sex determination. Mutations in this gene give rise to XY females with gonadal dysgenesis (Swyer syndrome); translocation of part of the Y chromosome containing this gene to the X chromosome causes XX male syndrome.
Applications:	WB
Name of antibody:	SRY
Immunogen:	Synthesized peptide derived from internal of human SRY.
Full name:	sex determining region Y
Synonyms :	TDF; TDY; SRXX1; SRXY1

SwissProt:	Q05066
WB Predicted band size:	24 kDa
WB Positive control:	Hela cells lysate
WB Recommended dilution:	500-3000
