

FLAG 抗原

中文名称: FLAG 抗原

英文名称: FLAG Antigen

别名: DDDDK epitope tag; DYKDDDDK epitope tag

相关类别: 抗原

储存: 冷冻 (-20℃)

概述

Synthetic peptide: DYKDDDDKDYKDDDDKC

技术规格

Full name:	DDDDK epitope tag; DYKDDDDK epitope tag
Background:	The DYKDDDDK peptide has been used extensively as a general epitope tag in expression vectors. Due to its small size, it is unlikely to affect the tagged protein's biochemical properties. This antibody recognizes the DYKDDDDK peptide fused to either the amino- or carboxy-terminus of targeted proteins.
