

## 兔抗 GFAP(Phospho-Ser38) 多克隆抗体

中文名称：兔抗 GFAP(Phospho-Ser38) 多克隆抗体

英文名称： Anti-GFAP(Phospho-Ser38) rabbit polyclonal antibody

相关类别： 一抗

储 存： 冷冻（-20℃） 避光

宿 主： Rabbit

抗 原： GFAP(Phospho-Ser38)

反应种属： Human

标记物： Unconjugate

克隆类型： Unconjugate

### 技术规格

|                                |                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>             | This gene encodes one of the major intermediate filament proteins of mature astrocytes. It is used as a marker to distinguish astrocytes from other glial cells during development. Mutations in this gene cause Alexander disease, a rare disorder of astrocytes in the central nervous system. Alternative splicing results in multiple transcript variants encoding distinct isoforms. |
| <b>Applications:</b>           | WB                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Name of antibody:</b>       | GFAP(Phospho-Ser38)                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Immunogen:</b>              | Peptide sequence around phosphorylation site of Serine 38 (R-L-S(p)-L-A) derived from Human GFAP.                                                                                                                                                                                                                                                                                         |
| <b>Full name:</b>              | glial fibrillary acidic protein                                                                                                                                                                                                                                                                                                                                                           |
