

兔抗 UBTF 多克隆抗体

中文名称：兔抗 UBTF 多克隆抗体

英文名称：Anti-UBTF rabbit polyclonal antibody

别名：upstream binding transcription factor, RNA polymerase I; UBF; UBF1; UBF2; UBF-1; NOR-90

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：UBTF

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the HMG-box DNA-binding protein family. The encoded protein plays a critical role in ribosomal RNA transcription as a key component of the pre-initiation complex, mediating the recruitment of RNA polymerase I to rDNA promoter regions. The encoded protein may also play important roles in chromatin remodeling and pre-rRNA processing, and its activity is regulated by both phosphorylation and acetylation. Alternatively spliced transcript variants encoding multiple isoforms have been observed for this gene. Pseudogenes of this gene are located on the short arm of chromosomes 3, 11 and X and the long arm of chromosome 11.

Applications:	ELISA, IHC
Name of antibody:	UBTF
Immunogen:	Synthetic peptide of human UBTF
Full name:	upstream binding transcription factor, RNA polymerase I
Synonyms:	UBF; UBF1; UBF2; UBF-1; NOR-90
SwissProt:	P17480
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	25-100
