

兔抗 UXT 多克隆抗体

中文名称: 兔抗 UXT 多克隆抗体

英文名称: Anti-UXT rabbit polyclonal antibody

别 名: STAP1; ART-27

相关类别: 一抗

储 存: 冷冻 (-20℃)

宿 主: Rabbit

抗 原: UXT

反应种属: Human, Mouse, Rat

标 记 物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	The protein encoded by this gene functions as a cofact or that modulates androgen receptor-dependent transcr iption, and also plays a critical role in tumor necrosis f actor-induced apoptosis. Expression of this gene may p lay a role in tumorigenesis. Alternatively spliced transcri pt variants encoding multiple isoforms have been obser ved for this gene.
Applications:	ELISA, IHC
Name of antibody:	UXT
Immunogen:	Full length fusion protein
Full name:	ubiquitously-expressed, prefoldin-like chaperone
Synonyms:	STAP1; ART-27
SwissProt:	Q9UBK9

ELISA Recommended dilution:	2000-5000
IHC positive control:	Human prostate cancer
IHC Recommend dilution:	20-100
