

## RHOH 抗原（重组蛋白）

中文名称： RHOH 抗原（重组蛋白）

英文名称： RHOH Antigen (Recombinant Protein)

别 名： TTF; ARHH

储 存： 冷冻（-20℃）

相关类别： 抗原

### 概述

Fusion protein corresponding to a region derived from 1-191 amino acids of human RHOH

### 技术规格

<b>Full name:</b>	ras homolog family member H
<b>Synonyms:</b>	TTF; ARHH
<b>Swissprot:</b>	Q15669
<b>Gene Accession:</b>	BC014261
<b>Purity:</b>	>85%, as determined by Coomassie blue stained SDS-PAGE
<b>Expression system:</b>	Escherichia coli
<b>Tags:</b>	His tag C-Terminus, GST tag N-Terminus
<b>Background:</b>	The protein encoded by this gene is a member of the Ras superfamily of guanosine triphosphate (GTP)-metabolizing enzymes. The encoded protein is expressed in hematopoietic cells, where it functions as a negative regulator of cell growth and survival. This gene may be hypermutated or misexpressed in leukemias and lymphomas. Chromosomal translocations in non-Hodgkin's lymphoma occur between this locus and B-cell CLL/lymphoma 6 (BCL6) on chromosome 3, leading to the production of fusion transcripts. Alternative splicing in the 5' untranslated region results in multiple transcript variants that encode the same protein.
