

TLE1 抗原(重组蛋白)

TLE1 抗原(重组蛋白) 中文名称:

英文名称: TLE1 Antigen (Recombinant Protein)

别 名: transducin like enhancer of split 1; ESG; ESG1; GRG1

储 存: 冷冻(-20℃)

相关类别: 抗原

概述

Fusion protein corresponding to a region derived from 571-770 amino acids of human TLE1

技术规格

Full name:	transducin like enhancer of split 1
Synonyms:	ESG; ESG1; GRG1
Swissprot:	Q04724
Gene Accession:	BC015747
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	Transcriptional corepressor that binds to a number of transcription f actors. Inhibits NF-kappa-B-regulated gene expression. Inhibits the tr anscriptional activation mediated by FOXA2, and by CTNNB1 and TC F family members in Wnt signaling. The effects of full-length TLE fa mily members may be modulated by association with dominant-neg ative AES. Unusual function as coactivator for ESRRG.
