## U2AF1 抗原(重组蛋白)

- 中文名称: U2AF1 抗原 (重组蛋白)
- 英文名称: U2AF1 Antigen (Recombinant Protein)

别 名: U2 small nuclear RNA auxiliary factor 1; RN; FP793; U2AF35; U2AFBP; RNU2AF1

- 相关类别: 抗原
- 储 存: 冷冻(-20℃)

## 概述

Fusion protein corresponding to a region derived from 1-240 amino acids of human U2AF1

## 技术规格

| Full name:         | U2 small nuclear RNA auxiliary factor 1  |
|--------------------|--|
| Synonyms:          | RN; FP793; U2AF35; U2AFBP; RNU2AF1   |
| Swissprot:         | Q01081   |
| Gene Accession:    | BC001177   |
| Purity:            | >85%, as determined by Coomassie blue stained SDS-PAGE   |
| Expression system: | Escherichia coli   |
| Tags:              | His tag C-Terminus, GST tag N-Terminus   |
| Background:        | This gene belongs to the splicing factor SR family of genes. U2 a<br>uxiliary factor, comprising a large and a small subunit, is a non-sn<br>RNP protein required for the binding of U2 snRNP to the pre-mR<br>NA branch site. This gene encodes the small subunit which plays<br>a critical role in both constitutive and enhancer-dependent RNA s<br>plicing by directly mediating interactions between the large subuni<br>t and proteins bound to the enhancers. Alternatively spliced transc<br>ript variants encoding different isoforms have been identified. |
