

UBAP1 抗原（重组蛋白）

中文名称： UBAP1 抗原（重组蛋白）

英文名称： UBAP1 Antigen (Recombinant Protein)

别名： ubiquitin associated protein 1; UAP; UBAP; NAG20; UBAP-1

储存： 冷冻（-20℃）

相关类别： 抗原

概述

Fusion protein corresponding to C terminal 200 amino acids of human UBAP1

技术规格

Full name:	ubiquitin associated protein 1
Synonyms:	UAP; UBAP; NAG20; UBAP-1
Swissprot:	Q9NZ09
Gene Accession:	BC098141
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	This gene is a member of the UBA domain family, whose members include proteins having connections to ubiquitin and the ubiquitination pathway. The ubiquitin associated domain is thought to be a non-covalent ubiquitin binding domain consisting of a compact three helix bundle. This particular protein originates from a gene locus in a refined region on chromosome 9 undergoing loss of heterozygosity in nasopharyngeal carcinoma (NPC). Taking into account its cytogenetic location, this UBA domain family member is being studied as a putative target for mutation in nasopharyngeal carcinomas. Multiple alternatively spliced transcript variants encoding different is

of forms have been found for this gene.
