

ZFP91 抗原（重组蛋白）

中文名称： ZFP91 抗原（重组蛋白）

英文名称： ZFP91 Antigen (Recombinant Protein)

别名： ZFP91 zinc finger protein; PZF; DMS-8; DSM-8; FKSG11; ZFP-91; ZNF757

储存： 冷冻（-20℃）

相关类别： 抗原

概述

Fusion protein corresponding to C terminal 200 amino acids of human ZFP91

技术规格

Full name:	ZFP91 zinc finger protein
Synonyms:	PZF; DMS-8; DSM-8; FKSG11; ZFP-91; ZNF757
Swissprot:	Q96JP5
Gene Accession:	BC051743
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	The protein encoded by this gene is a member of the zinc finger family of proteins. The gene product contains C2H2-type domains, which are the classical zinc finger domains found in numerous nucleic acid-binding proteins. This protein functions as a regulator of the non-canonical NF-kappaB pathway in lymphotoxin-beta receptor signaling. Alternative splicing results in multiple transcript variants. A read-through transcript variant composed of ZFP91 and the downstream CNTF gene sequence has been identified, but it is thought to be non-coding. Read-through transcription of ZFP91 and CNTF has also been observed in mouse. A ZFP91-related pseudogene has

s also been identified on chromosome 2.
